

Cloud Native Java Developer (m/f/d)

[Apply Now](#)

Company: tech11

Location: Accra

Category: computer-and-mathematical

Your mission

Develop, discuss and take responsibility for solution designs

Product development based on latest technologies

Development of microservices with Jakarta EE and Quarkus

Project work: IT consulting, system integration

Acquisition of expertise in the insurance IT industry

Your profile

Completed **bachelor's and master's degree programs** in Computer Science, Management Information System, Computer Engineering, or a related field (please provide the certificates in your application documents)

A minimum of **2 years of professional experience** in Java EE / Jakarta EE (main focus on JPA, CDI, JAX-RS) - Having knowledge of Quarkus is a plus point

Perfect internet connection (video chats must be always possible / without this it's not possible to work in our agile team)

Experience in REST architectures and microservices

Good knowledge of relational databases (PostgreSQL, MS SQL, SQL)

Basic knowledge in Java Script

Ideally of BPMN2 (Camunda BPM)

Code Quality awareness and familiarity with the tech-stack noted by Adam Bien

Experience working in an Agile/Scrum environment

Excellent communication skills (EN)

High motivation, proactivity & detail-oriented

Why tech11?

We are **tech11** Provider of the tech11 Insurance Platform.

We are an international team with a German head office, currently expanding around the globe. Our goal is to bring new possibilities to the insurance industry with the tech11 Insurance Platform.

After successfully setting up the first teams in Ghana, we now want to continue growing in Accra and are looking for the best **Cloud Native Java Developers** out there. Together with you, we want to advance the backend of our innovative product in an agile team.

Also, personal development is important to us: We give all members of the tech11 family the possibility to develop their skills and abilities individually.

Furthermore, you can expect the following benefits;

Be part of a company that uses cutting-edge technology to revolutionize the insurance industry

Comprehensive health insurance coverage

Collaboration in an international team and international business

Development opportunities and creative freedom in a growing technology company as well as attractive training programs to promote your know-how

Regular feedback meetings to advance your individual career planning - we appreciate flat hierarchies and open communication

Transparency through regular company updates

Active feelgood management and regular team events in Accra with the best colleagues in the world

Fully remote work with flexible working hours (Work-Life Balance)

Compensation:

Competitive gross salary range of 500 - 1,000 euros per month.
