

Engineering Lead- Automation at GBfoods

[Apply Now](#)

Company: GBfoods

Location: Ghana

Category: other-general

Role & Responsibilities:

This position will support operations by maintaining, troubleshooting, repairing and optimizing all facilities and manufacturing equipment including but not limited to construction, painting, plumbing, welding, heating/cooling, automation and fire protection systems in a safe and orderly fashion.

This position creates value for the facility by performing preventive and corrective maintenance leading to increased up-time and reliability, thus helping the facility to meet their production and quality goals.

Results / Accountabilities

Create and implement automated solutions for manufacturing, testing, data analysis, and other processes.

Integrate sensors, controllers, actuators, and other hardware components with software interfaces to create a complete automated system that performs tasks accurately and efficiently.

Conduct thorough testing of automated systems to ensure they function as intended. Identify and resolve any issues, bugs, or errors in the automation process to maintain reliable performance.

Monitor and analyze the performance of automated systems to identify opportunities for optimization and efficiency enhancement. Implement improvements and upgrades to existing automation solutions.

Work closely with cross-functional teams including mechanical engineers, software developers, quality assurance, and production personnel to ensure seamless integration of automation solutions within the overall workflow.

Create detailed documentation including design specifications, user manuals, and maintenance guidelines for the automated systems.

Ensure that automated systems adhere to safety regulations and industry standards.

Implement fail-safe mechanisms and emergency protocols to prevent accidents and ensure the well-being of personnel.

Provide training and support to operators and maintenance personnel to ensure they are proficient in operating, maintaining, and troubleshooting automated systems.

Any other duties assigned by your manager.

What can you expect from us?

Working for GBfood will offer you a wide variety of career opportunities that will enable you to utilize your full potential. In addition to local and global developmental opportunities, we provide employees with competitive compensation, comprehensive benefits plan and much more.

What do we expect from you?

We are looking for someone who is committed, action oriented, problem solver and excellent relationship skills, pays attention to detail and is ready to explore the opportunities and challenges that the role brings.
