SNV is a not-for-profit international development organisation that applies practical know-how to make a lasting difference in the lives of people living in poverty. We use our extensive and long-term in-country presence to apply and adapt our top-notch expertise in agriculture, energy and WASH to local contexts. SNV has an annual turnover of € million, over 1, staff in more than countries in Africa, Asia and Latin America. We are proud to be a not-for-profit organisation that uses project financing to implement our mission. This requires us to work efficiently and to invest in operational excellence. SNV aims more explicitly for systems change during project preparation and implementation – by strengthening institutions and kick-starting markets that help many more to escape poverty beyond our projects. We continue to position ourselves as a premium organisation, with decentralised management.
